

Formerly the Sustainable Building Coalition, the group incorporated as a nonprofit organization expanded its mission to reflect a goal to facilitate the incorporation of sustainability into every aspect of people's lives. While sustainable building will remain of central importance in our educational efforts, all aspects of a more sustainable lifestyle will be part of the mission. DBL offers periodic site visits to view sustainable buildings. Sign up for the group's newsletter at the web site. Details: Gayle Borst 478-9033 www.designbuildlive.org .
